www.meksea.com

1

Meksea can offer partners the possibility to develop businesses by combining many different items into 01 container & rare products.

2

Meksea can control the quality of each product specification right from the stage of customers placing the order, to ensure products are produced to the right specification of customer's expectation.

3

Meksea ensure that goods are delivered at the scheduled shipment time so as to meet customers proposed sale sequence plan.

4

Meksea can meet large and long-term orders with complex production and packaging specifications.

5

Meksea eliminate risks that businesses could have when working with production units in Vietnam such as losing deposit, slow delivery, receiving goods at incorrect specification or poor quality, etc.

6

Meksea guarantee goods in accordance with the standards and regulations of each individual market.

7

Meksea can produce orders using customers' packaging labels and assist customers in designing & promoting your brands.

8

Through bulk purchasing at the sources, Meksea possess the competence to sell at competitive prices to customers at each market time.

9

Meksea support customers with flexible payment terms/times.

10

Meksea's sales, after-sales service and handling of complaints are always placed as number 01 priority following the culture of Professional – Conscientious – Sharing.
